Andrew is from Manipur. His whole family died due to HIV and he is the only survivor. He used to live with his Aunt. Before coming to Happiness Home he was regularly bullied in school and even in the community because he is infected with HIV. So his aunt brought him to Happiness Home with the hope of being freed from bullying and feeling insecure. Now he feels safe and is able to continue with his studies. He is preparing for his 12th Grade Examination, he likes reading books especially the Bible and wants to become an Administrative Officer.
